HOW TO COMBAT DISEASE GERMS

Fresh Air and Sunlight Best Weapons To Use

LET THE SUNSHINE IN

Health Officer Foulks Says Burn Trash and Remove Hiding Place For Germs.

Health Officer, Dr. L. E. Foulks, during a conversation with a representative of the Gazette, said, "Many people fail to realize that fresh air and sunlight are the best weapons we can use in our general fight against disease germs. " A germ hates sunlight like the devil is said to hate holy water! It lurks about in dark, filthy places as much as possible and strikes when you are not looking and are off your guard.

A diease germ is what we might well describe as the Bolshevik, I. W. W. and long-haired, wild-eyed anarchist of the vegetable kingdom. And like the above mentioned animals, it dont like either light, clean water or soap!

But speaking of light, reminds me of a visit I made to a house the other day, to look up a complaint that had been sent to the office. On reaching the house I rang the bell and a lady answered it and invited me into the front room, although it was a bright clear day, that room was so dark and gloomy that I promptly ran into a table or some article of furniture. However, I felt about and finally located a chair. During our conversation I asked the lady why she did not raise the curtains and let in the glorious sunshine. Her answer was, "Why, Doctor I would not dare do that, it would fade by nice carpet and you know how high priced carpets are these times.'

Now there you have an illustration of the state of mind so many people seem to get into. It is true that God's pure sunlight might fade her carpet, but the lack of it will most surely fade her cheeks!

It is also true that the price of a carpet is high and it would cost quite a little money to purchase a new one, yet by the same token it would cost far more, to disturn the natural color to faded cheeks!

In my humble opinion, it is far better to have faded carpets than faded cheeks. Deprive a plant of sunlight and see how soon it will begin to turn a sickly, yellowish-green; its leaves soon drop off and in a very short time it becomes a really pitiful object. A human being is in need of sunlight just the same as a plant, and no person will long remain healthly if deprived of it, and a house cannot be kept sweet and clean where the rays of sunlight are not permitted to enter. Such a house at best, always has a sort of dead, musty smell.

Lace curtains and other window draperies may look very nice and fashionable, but when they are used to stain or exclude the rays of life—for the sun is life to all nature—I think they are misplaced, to say the least. Why try to exclude your best and most helpful friend, when his only mission is to purify and brighten your home!

One day last August whilewalking down Washington Street, I noticed one of those very clean, nice, darling, angel sort of little boys you sometimes see illustrated in the Sunday School papers. He was most carefully dressed in immaculate white, wore long golden curls and a pair of glasses and had a complection like a sick wax doll! suddenly a door opened and a very precise voice called out, "Now Algernon, darling, come right in out of the sun this minute, it will give you freckles."

May the good Lord help Algernon and keep him free from freckles, but I would just like to take him out on a camping trip with me for about a month. By that time I would have him looking almost human! A gloomy house is very apt to develop gloomy people with gloomy ideas. So let in sunlight to dispel the gloom, Clarify the atmosphere and "brighten the corner where you are."

But I was talking about germs before I started up this gloomy question, so I will continue. There are few disease germs that can stand the direct rays of the sun for any length of time. If it were not for this fact, few of us would stand much of a chance of reaching mature age. It is for this reason the modern sanitary expert insists upon the surroundings of our houses being kept clean and free from trash and weeds. Keep your yard clean and the sun will give any disease germs lurking there such a headache they will forget all about trying to bother you.

A small boy asked me the other day if germs really did come from Germany. I told him it was not quite so bad as that, although they certainly did have some of the Hun traits, such as killing women and children and poisoning our water and food. But the Hun also taught us how to fight with fire, and fire will take the starch out of a strong,healthy germ about as quickly as anything I know of. So burn up your trash and you wil lnot only remove a good hiding place, but may also cook the hiding germs!

IN MEMORIAM

In sad but loving remembrance of my dear mother, LUCY IRENE REID, who departed this life one year ago today, October 16, 1918.

We watched you dear mother fading
But little did we know,
That on this day one year ago,
Your soul from us would go.
We loved her, yes, we loved her,
But angels loved her more,
And she has safely joined them
On yonder shining shores.
There is a vacant chair in our home
There's a place that can never be filled,
For we lost one of the earth greatest treasures,
When the heart of dear mother was stilled.
But her memory shall be with us ever,
Till we meet on a far-distant shore,
And the hearts are broken will greet her,
On the day we will part never more.
O mother thy gentle voice is hushed,
Thy warm true heart is still,
And on your pale and peaceful face
Is resting deaths cold chill.
Thy hands are clasped upon thy breast,
We have kissed thy marble brow
And in our aching hearts we know
We have no mother now.

By her beloved daughter, Grace.
247-1c.

In sad but loving remembrance of our dear brother and son, JOHN R. MITCHELL, who was killed in action in France one year ago today, October 16, 1918.

Dear little flag with a golden star
Stands for a brother that's gone afar,
Who gave his life for the red, white and blue,
For the noblest cause we ever knew.
"Killed in action" that awful blow,
Has stamped our lives with pain
And every day it seems as though
We look for you in vain.
He is gone, but was so young and fair,
He slumbers sweet and knows no care,
His heart was true, his life was young,
Yet not our will, but God's be done.
His face our minds will always see,
Forgotten, though, shall never be.

By mother, brothers and sisters.
247-1p.

In loving remembrance of our dear son and brother, Reuben T. Henderson, who departed this life one year ago today, October 16, 1918.

If we had seen you at the last
And held your dying hand
And heard the last word from your lips,
We would not feel so bad.
We did not know the pain you bore,
We did not see you die,
We only know you passed away
And did not say good by.

2471-p Mother and sister Ruth.

VICTIMS OF EVICTION

Following the example set by Shylock and other profiteers in raising rentals, it is said that a number of property owners in Winchester, taking advantage of the scarcity of houses, have resorted to the methods which are being denounced all over the country in increasing the rent on their tenants, or else threatening them with eviction just now as the cold weather is about to set in.

Numerous cases of advances in rents and complaints from the hapless tenants have been received and in most cases these tenants have sought legal advice, only to be told that there is no remedy at law and that if they are notified to vacate a premises they must do so within the time limit.

There seems to be an impression prevailing among many tenants that the law permits a tenant to remain in a house after the lease expired, provided the tenant is unable to secure another dwelling. There is no such law on the statute books and the tenant has no recourse whatever at law when his landlord sends him a notice to vacate within the thirty days.

In the downpour of rain one day this week such a hapless man was seen trudging around Winchester looking for a home for his family, a wife and three small children. He had rented from the same landlord for a number of years, and always had been prompt in the payment of his rent yet the landlord recently sold the house to a new owner, and the latter now desires immediate possession of the same.

This man had looked for a place to take his family during Saturday night, and he resumed his quest all day Monday, without being able to find any place to rent; yet he must vacate his present home and must take chances on finding some place to shelter his family. He said that at the present moment his wife was at the place they called home with various pans sitting on top of the stove catching the rain water which fell in steady streams through holes in the roof while the cellar was then nearly filled with water from a stream coursing down a hill in the rear yard.

During the past two years similar scenes have been noticed in Alexandria brought about by the sudden demand for increased rents, in some instances twice as much as some tenants had been paying. Houses are scarce in this city, as they are in all other places at this time, and as winter is now at our doors persons forced to remove from one cause or another are experiencing troubles similar to those in evidence in Winchester.

THE STRIKE EPIDEMIC

It is estimated that 120,000 workers in 13 of the larger trades are on a strike in New York, in addition to which 50,000 are out on individual strikes, co-called outlaw strikes, and strikes of unorganized workers, making 170,000, and another 50,000 are out of work because others have struck. The New York longshoremen hooted their own leaders who urged their returning to work. In some other strikes, outside of New York, the strikers have defied their supposed leaders, or have struck against the orders of their brotherhoods. In some strikes here and elsewhere the strike is an undisputed violation of an agreement entered into by the men.

As an exchange says, "the revolutionary elements are so confused with the strictly industrial elements that it is impossible to draw a line between the two. William Z. Foster in a syndicalist, and Wilkams, of Bethlehem, is a Bolshevist. In New York there has been distributed an incendiary circular appealing to all workers to 'arm yourselves and fight back,' and threatening a Supreme Court Justice, an Assistant District Attorney, and a Detective Sergeant. In Gary, Indiana, pamphlets have been distributed announcing a plot to overpower the Federal troops.

"Eight strikes now in progress have been sanctioned or recognized by the American Federation of Labor. In the United States Department of Labor 62 strikes now in operation are listed which have not received the authorization of the American Federation of Labor.

"The difficulty of reaching any sort of compromise or adjustment in these intolerable interruptions of industry is that the unions cannot be depended upon to keep agreements; that strikes, have already carried wages up and hours down till the employers are within sight of the end, and feel that every concession will be the occasion for demanding more concessions, and also, and probably chiefly, the very general feeling that the present strike epidemic has been fomented by the I. W. W., the syndicalists, the anarchists and by every revolutionary element, and that the success of any of the larger strikes would encourage further attacks upon industry, not merely for higher pay and shorter hours, but to expel the owners of the plants."

$150,000 OF JEWELS TAKEN

Thieves Jimmy Safe in New York Apartment of Mrs. Leyla Brandeis

New York, Oct. 16.—The theft of jewelry valued at $150,000 from the West Seventy-second street apartment of Mrs. Leyla Brandeis, widow of one of the most prominent merchants of Omaha, was made public yesterday. The theft was committed on Sunday.

Mrs. Brandeis, who is a young woman, came to New York City from London two weeks ago, having spent the summer in England. Mrs. Brandeis went to Freeport, L. I., on Saturday to spend the week end with her mother and when she returned on Monday found a safe guarding the jewels broken open. The safe which contained a large row of pearls, a diamond necklace, diamond pins, rings and other articles, was a "safekeeping box" built into a closet of the apartment. The burglar or burglars pried the safe from the closet and by the use of a jimmy opened it and took the contents. The safe was afterwards found in the bathroom.

The police claim they are working on an important clue.

GOMPERS HAS A BREAKDOWN

Stricken on Anniversary of His Daughter's Death—Under Great Strain

Washington, Oct. 16.—Samuel Gompers, president of the American Federation of Labor, is confined to his home here in a state of nervous exhaustion. His temperature yesterday was 101 degrees, and his physician has ordered him to remain in bed.

A statement announcing Gompers' illness said:

"Mr. Gompers returned home from the Industrial Conference last evening greatly exhausted and went immediately to bed. His physician, Dr. Henry P. Parker, was called to see him. He found Mr. Gompers in a state of nervous exhaustion with a temperature of 101 degrees. The doctors said it would be absolutely necessary for Mr. Gompers to remain in bed."

Gompers illness followed a speech urging adoption of the resolution to mediate the steel strike, at the conference yesterday.

SAYS JAPAN PROFITS BY VICE

President of Korea Makes Charges in Princeton Address

Princeton, N. J., Oct. 16.—In an address last night before Princeton University students, Dr. Syngman Rhee, president of the Republic of Korea, charged Japan with introducing licensed vice and the importation of women and opium into Korea for commercial purposes.

"All the products of illicit traffic and licensed vice go into the coffers of the Mikado, while the Government expenses are paid by direct taxes," Rhee declared.

"Japan has sought to prevent our publishing these facts," said Rhee. "She suppressed all the newspapers, censored all the mails, seized the telephones and telegraph lines, and does not allow Koreans to leave the country. Licensed vice and opium traffic are introduced and fostered by the Imperial Government of Japan, while thousands of acres of popples are planted and the products sold only to the Government."

ASK $55,000 FOR ROAD CAPITAL TO ALEXANDRIA

The Alexandria-Washington highway committee of the Washington Chamber of Commerce will have its first meeting tonight to settle on ways and means to raise $55,000 to be given to the board of supervisors of Alexandria County to help build a concrete road between Alexandria and Washington.

The Virginians seek this donation from Washingtonians who use the highway. They have already built a concrete road for the distance, save one and one-seventh miles. The stretch will cost $55,000.

Howard Norton is chairman of the committee of twenty-five of the chamber with this plan in charge.

CHURCH PROBLEMS

Influence of Work on Monroe Doctrine Discussed by Joint Bodies of P. E. Church

Detroit, Mich., Oct. 15.—In joint session the two legislative bodies of the triennial general convention of the Protestant Episcopal Church are considering yesterday the problems of the church in Latin America and the influence of the church work on the Monroe Doctrine.

The hundrd million dollar budget plan is expected to be taken up today.

Dr. Robert W. Patten, a leader in the campaign, said that definite plans have been made for carrying the campaign into every Episcopal home. Lewis B. Franklin, New York financier, is recruiting 100,000 men and women for the campaign work.

James Moore Hickson, a Church of England man and proponent of apostolic healing by "laying on of hands" is here to address the bishops and clerical deelgates Thursday. Mr. Hickson, who expects to remain in America about nine months at the request of Episcopal churchmen, is supported in his claims of cures "through faith" by Dr. William T. Manning, of Trinity Church, New York, and other prominent men here for the convention.

CROSSED WIRES KILL MAN

Two Others Severely Shocked as They Try to Rescue Him

Shamokin, Pa., Oct. 16.—Charles L. Schankweiler, aged 31, a butcher, was electrocuted in his place of business yesterday and two of his assistants, John Hunter and Reuben Tharp, were severely shocked while endeavoring to effect a rescue. Schankweiler had picked up an extension cord to make repairs to a boiler when he was hurled to the floor. Hunter, who attempted to pull the wire from Shankweiler's grasp, was hurled across the room and severely burned. Tharp in turn attempted to throw off the switch leading into the building, received a severe shock, and was hurled 10 feet through a glass door. A high tension line had become crossed with the line leading into Sschankweiler's place of business.

EXPECT CAR TIE-UP

Norfolk, Portsmouth, Richmond And Petersburg Await Strike

Norfolk, Va., Oct. 16.—Street car motormen and conductors on the lines of the Virginia Railway and Power Company here have concurred with employes of the same company in Petersburg and Richmond in voting to go on strike in the event that the traction company refuses to arbitrate wage demands. Officials of the traction company say they will not submit the demands to arbitration unless the board of arbitration also has power to fix car fares. Since the power to fix car fares cannot be delegated to a board of arbitration, the cities of Norfolk, Portsmouth, Richmond and Petersburg are preparing for the strike, which is considered unavoidable.

The motormen and conductors are now getting a wage of from 41 to to 45 cents an hour. They are demanding a wage of 50 to 60 cents an hour. Their action in voting to strike if their demands for arbitration are refused is a repudiation of an agreement made between the traction ompany and the union July 9 last and further confirmed when it was amended September 5. That agreement fixed the present wage scale.

BAN ON LEAGUE DEBATE

P. E. House of Delegates Will Not Discuss Question

Detroit. Oct. 16.—There will be no political debate on the League of Nations Covenant in the House of Deputies of the General Convention of the Protestant Episcopal Church here when the attitude to be expressed before the world on the issue by the church is decided.

A resolution to this effect, but authorizing submission of resolutions and amendments to resolutions on the League of Nations document, was adopted yesterday morning by a 3 to 1 vote.

It was stated to the convention yesterday that the survey of the needs of the church to date show $62,000,000 must be raised through the nation wide campaign to maintain church activities and extend the work the next three years.

The convention is expected to come to an end by October 24, and in the House of Bishops today a resolution was adopted to close the meeting on that date.

The House of Bishops postponed action on the proposition to admit women delegates to the House of Deputies in future conventions until the House of Deputies shall take action on the question.

BERLIN EMPLOYES STRIKE

Berlin, Oct. 16.—Berlin experienced a new brand of strikes yesterday afternoon when 15,000 clerical workers in the municipal offices walked out, demanding higher pay. Among the departments directly affected is the Bread Card Distributing Bureau, with 246 branches, also the Coal, Milk, Butter, Fat and Meat Control departments, as well as the Municipal Savings Bank.

The movement is said to have originated in the ranks of the auxiliary workers, who are dominated by the radical element. The City Council held an emergency session yesterday to devise means for keeping the city's food and fuel organization in operation.

BUNCO MEN ARE STILL HOT AFTER THE COIN

But New Securities Offered by Government Are Calculated to Go Far Towards Ending Their Business

Farmers are a great deal more prosperous than they were a few years ago. Nobody knows this any better than that suave and oily gentleman, the "bunco man." The farmers' prosperity has made him a shining mark in these gentry. The fake security man, the stock company promoter and the wily sharper are mighty busy persons just now and a great many of them are "working the country," and working it hard.

Do you recall the "miracle wheat" proposition of a few years ago? Maybe not by that name, for it had a good many names. One of its aliases was 'Jerusalem wheat." Another was "Egyptian wheat." However, the name doesn't matter much for it was all the same thing. Most farmers will recall it, anyway.

When the farmers would not fall for the story any other way they were told that if they would give $10 or maybe $20 a bushel for the seed they could sell the whole harvest back in the fall for the same price per bushel that they paid for the seed.

Of course, some people bought and paid for the seed. And they went ahead and sowed it and waited a year full of trustfulness but the sharper who was to take the crop off their hands failed to show up. They found that they had a very poor grade of wheat, anyway, and it dawned upon them that they had been stung and stung hard and deep.

Right now a good many farmers are being offered all sorts of investments, oil stocks and plantation stocks and a whole lot of other stocks. Some of these are offered in exchange for War Savings Stamps and Liberty Bonds. Some of them, too, are just about on a par with the "miracle wheat" that came from Egypt or Palestine. It will pay about such dividends. It is likely not to pay a cent one way or another. In a few years it will be valuable only as waste paper.

The same United States government that more than a year ago promised the American farmer $2.26 for his wheat, and is making good every day, is now offering the farmer an investment that is just as safe as the wheat that he grew on his farm this year after it is stored in his granary.

New Treasury Saving Certificates, simply a development of the familiar War Savings Stamps, can be had. These certificates are offered in denominations of $100 and $1,000 on the identical terms of the War Savings Stamps.

Eighty-four dollars and twenty cents invested in a $100 Certificate will grow into a $100 bill by January 1, 1924. Multiply these figures by ten and the words will apply to a $1,000 certificate. Or the youngsters, or the person with limited means to invest, may pay $4.21 for a War Savings Stamp and on January 1, 1924, it will be a $5 bill. These securities draw four per cent interest, compounded quarterly.

War Savings Stamps do more than add dollar to dollar. They begin to multiply.

BANKS GAVE SPLENDID AID IN LOAN DRIVES

Public Should Now Help Them In Their Efforts To Make Country Even More Prosperous.

By Carter Glass,
Secretary of the Treasury.

No group of men in the United States measured up to the test of the great war more admirably than did the bankers. The success of the United States Treasury Department in selling over $21,000,000,000 in Liberty Bonds and Victory Notes during the last two years was due in no small measure to the patriotic co-operation of the banks. They took a most active part in each of the loan campaigns.

They subscribed generously for themselves, made loans to their customers in order that they might buy bonds, and sold bonds on installments to accommodate those having small savings. In other words, the banks did everything possible to promote the sale and distribution of government securities.

The banker can render an equally great service in reconstruction by co-operating with the government in its movement to teach the people of the United States the lessons of sound finance and wise investment. In promoting this cause the banker will aid his institution and the financial situation in general at the same time.

Now that the war is over the people should be impressed with the wisdom of holding their government securities and also of purchasing more, from time to time. The more generally the people of the United States absorb government securities the greater will be the ability of the commercial banks to devote practically all of their resources to furnishing adequate credit to the commerce and industry of the country.

Providing short-time credit to commerce and industry is their normal peace-time function. The sale and movement of farm crops, manufactured products and other commodities, as well as the continuous and efficient employment of labor, in fact, the whole industrial process will be promoted by permitting the commercial banks to devote all their resources to this function.

The people of the United States should, therefore, be encouraged to pay off their installments and borrowings on bond collateral as rapidly as possible, and also to purchase additional government securities as issued from time to time or in the market. If this is done the people of this country will be benefitted in a two-fold way. They will free material and labor for the production of commodities which are now so desperately needed the world over. At the same time they will be strengthening themselves financially.

HOW THEY GROW

Plant a crop. Nothing happens. Nothing that one can see.

Be patient. The seed sprouts. The stalk pushes its way through the earth. Still no sign of fruit.

Be patient. Leaves come out. Buds open. Berries begin to form. Still no harvest.

Be patient. The fruit fills out. It ripens. It matures.

Harvest at last—miraculously increased from a little handful of seed.

But the War Savings Stamp beats this. There is no element of risk.

There is no way to lose. You must win.

Your money works for you. It makes more money all the time.

War Savings Stamps work bank account wonders.

LINER ABANDONED AT SEA

139 Passengers And Crew of French Steamer Rescued

New York, Oct. 16.—A wireless message was received yesterday by the local agents of the French liner from the captain of the steamer Chicago saying that he had on board 19 first class passengers, 18 second and 102 third, rescued from the Fabre liner Venezia, which was abandoned on fire in midocean, The Chicago also carries 15 officers and 140 men of the crew of the Venezia and 169 sacks of mail. She is due to dock here on Saturday.

The first news of the disaster to the Venezia came in a wireless message from the Niagara, of the French line, saying that the vessel had taken off the crew of the burning steamer, but making no mention of passengers.

The apparent discrepancy is explained by the French line agents as probably due to the fact that the Chicago and Niagara reached the Venezia at the same time and that the major portion of those rescued were taken on board the Chicago, as she was traveling west with a light load, while the Niagara was bound east with nearly all her accommodations occupied.

PROF. J. M. HARRIS DEAD

Fredericksburg, Va., Oct. 16.—Professor Jere M. Harris, aged 80 years, of Lignum, Culpeper county, died Tuesday. He was a native of Louisa county, a master of arts of the University of Virginia, and a professor of chemistry in Furman University, of South Carolina, for a number of years. He established the first cottonseed oil mill ever located in that State, and a fertilizer factory for the by-products, discovered the value of cotton seed hulls, which have added millions to the value of the cotton crops of the South.

In 1887 Prof. Harris retired from that line of business and came back to his native State of Virginia and purchased the Gerunna farm in Orange county. He served a number of years on the board of supervisors of Culpeper county, and was largely instrumental in establishing the present system of good roads in that county.

GIVEN CONFIDENCE VOTE

Clemenceau Wins Bitterest and Hardest Fight he Has Yet Experienced

Paris, Oct. 16.—The Clemenceau ministry was sustained in the Chamber of Deputies yesterday afternoon by a vote of 324 to 132. The premier thus victoriously emerged from the bitterest and best organized assault which the ministry had ever faced. The chamber adopted the cabinet's policy on the chronological order of the elections, placing the legislative elections first, on November 16, and the senatorial and municipal elections in that order.

For the first time Aristide Briand, the former premier, came out openly in leading the opposition forces, but M. Clemenceau's majority was the largest he had ever received when the question of confidence was presented.

BILL TO BAR REDS

Both Sides Decide to Put Through Measure Immediately

The House last night agreed to pass first thing today the bill designed to prevent the threatened rush of European undesirables to this country. The bill extends the war time control of passports for one year after the proclamation of peace.

Final action on the measure would have been taken last night, but for a parliamentary tangle which forced the vote over until today. Discussion of the bill revealed that there was no opposition to it.

The Senate will be asked to expedite the legislation when it reaches that side of the Capitol. It is hoped to get it through the upper branch before the end of the week.

WILSON'S CONDITION

Assurance Comes From the White House That he is Getting Better

Absence of any new complication in President Wilson's illness brought from his bedside late yesterday the assurance that he is "getting better." Elimination of the recent annoyance caused by a slightly enlarged gland has removed the only outstanding obstacle to his convalescence and about the White House there was manifested a decided atmosphere of optimism.

His condition was summarized in the following bulletin.

"The President had a good night's rest, enjoyed his breakfast, and aside from a slight headache, continues to make improvement. The condition which caused the restlessness of Monday night, and about which Dr. Fowler was consulted, gave no trouble during the night.

With the exception of the news furnished him by Mrs. Wilson, the President has learned very little of national and international developments, although he is given daily a general summary of events. He has at times expressed a keen desire for more comprehensive reports and has asked Rear Admiral Grayson, his personal physician, for news, but always Dr. Grayson has succeeded in keeping away from his patient information that might prove trying to his nerves.

The President's appetite is reported to be as good as expected and a recurrence of the glandular trouble is not anticipated. Only a moderate rate of recovery is looked for and indications, official and otherwise, are that the improvement announced today may be continued.

But such organization and government shall apply only to such cities or towns as may thereafter adopt the same by a majority vote of those qualified voters of any such city or town voting in an election to be held for the purpose, as may be provided by law.

(c) The general assembly, at the request of any city or town made in manner provided by law, may grant to it any special form of organization and government authorized by sub-section (b) of this section, and subject to all of the provisions of that sub-section, except that it shall not be necessary for such city or town to thereafter adopt the same.

(d) Any laws or charters enacted pursuant to the provisions of this section shall be subject to the provisions of this Constitution relating expressly to judges and clerks of courts, attorneys for the Commonwealth, commissioners of revenue, city treasurers and city sergeants.

"JUNK HEAP" IN STOMACH

Dog Chain, Razor and 180 Other Articles Removed

Boston, Oct. 16.—Discovery of a "human junk heap" was announced by officers of the House of Correction at Deer Island yesterday. Charles W. Buzzell, of Montreal, serving a sentence of one year for forgery, complained of indigestion.

A surgical operation resulted in the recovery of two pounds of miscellaneous articles from his stomach. The collection, Dr. L. C. Rockwell said, included parts of a dog chain two feet long, a safety razor blade nearly whole, a suspender buckle and 179 fragments or pieces of glass, hay wire, staples, nails and screws. Relieved of these substances, Buzzell almost entirely has recovered, it is said.

The prisoner had been accummulating the collection with suicidal intent, according to Dr. Rockwell, since last December. He had previously made a similar cumulative attempt to end his life, but it was frustrated by an operation performed in New York, he said.

Buzzell told the surgeons that he was a former clergyman, having held seevral pastorates in Canada, and had been convicted of worthless check operations in Michigan, New York and New Jersey.

TO STOP COAL STRIKE

Secretary Wilson Assumes Jurisdiction as Mediator and Calls Conference Tomorrow

Washington, Oct. 16.—Secretary of Labor Wilson announced last night that he had assumed jurisdiction under the law as a mediator in the controversy between the coal miners and operators of the Central competitive fields, which has resulted in a call by the United Mine Workers of America for strike on November 1.

Secretary Wilson said that both John L. Lewis, acting president of the United Mine Workers, and Thomas F. Brewster, president of the Coal Operators' Association, had accepted his invitation to confer with him and that the conference would be held here Friday.

Indianapolis, Ind., Oct. 16.—The order calling all union bituminous coal miners of the country to "cease production of coal at midnight on Friday, October 31, 1919." was issued from the International headquarters of the United Mine Workers of America here at noon yesterday. The order is signed by John L. Lewis, acting president, and Wm. Green, secretary treasurer of the miners.

The official strike call permits local unions to assign "a sufficient number of men to remain at work to insure the proper care and protection of all mining properties in conformity with the provisions of district agreements."

It also urges that fullest co-operation be given "the operator to prevent injury to property," and asserts that "under no circumstances should this rule be violated or set aside by local unions."

Cancellation of a wage agreement made by Federal Judge Alschuler, of Chicago, under which the men have been working and the substitution of an independent scale also is demanded.
